## TERRITORIAL NEWS.

AN EDUCATIONAL BILL PRESENTED  
IN THE HOUSE.

Edmund H. Smith, of this City,  
Agrees to introduce the Dis-  
ference in the Sheriff's  
Accounts.

Special Dispatch to The Journal.

SANTA FE, N. M., Feb. 26.—The most  
important business in the legislature to-  
day was the introduction of a bill for a  
public school law by the Educational  
Committee of the House. This measure  
provides for a system of public education  
very similar to Kansas. It creates a Ter-  
ritorial Superintendent, with power to ap-  
point an assistant superintendent in each  
county. It makes the Territorial Super-  
intendent, Governor and Secretary a  
Territorial school board and makes each  
voting precinct a school district with  
power to maintain and move the school  
houses.

This forenoon it was discovered that  
two or three sticks of dynamite had been  
placed in a wood pile and a sensation en-  
sued. Some of the members concluded  
at once that it was a diabolical plot of the  
Chaves council to blow up the houses,  
but the general opinion is that some fool-  
ish fellow put it there thinking it would  
be a good joke.

The chairman of the county board and  
the sheriff, both accompanied by their  
friends and attorneys are here, and the  
county imbrigo is transferred to the cap-  
ital. They have been discussing the mat-  
ter before the governor and attorney  
general all day, and I understand to-  
night that an agreement has been  
reached between the different parties in  
interest that the case shall be settled in  
chancery, with Edmund H. Smith as  
master, and that whatever he finds due  
from the sheriff shall be paid into the  
treasury by him, with the right of con-  
test afterwards for whatever items the sheriff  
may take exception to.

It is snowing very hard up here.

## WASHINGTON ITEMS.

HOUSE AND SENATE KEPT VERY  
BUSY.

Confirmations—Talk about Building  
New Iron Clads for the Naval  
Service—General Cap-  
ital News.

Senate.

WASHINGTON, D. C., Feb. 26.—The  
Senate Committee on Military Affairs re-  
ported favorably the House bill for the  
relief of Fitz John Porter, which was made  
a special order for Wednesday, March  
12. Wilson, from the Committee on  
Post Offices and Postroads, reported fa-  
vorably the bill prohibiting the mailing  
of newspapers containing lottery adver-  
tisements, which was placed on the cal-  
endar.

Call introduced the following joint res-  
olution which passed without debate:  
Resolved by the Senate and House of  
Representatives, that the act of Her  
Britannic Majesty's government in pre-  
serving the Arctic steamship, Alert, which  
is to be used in the contemplated expedi-  
tion to relieve Lieut. Greely and party,  
is recognized as opportune and generous,  
and is deeply appreciated by Congress  
and the people of the United States.

That the President is hereby requested to  
communicate a copy of this resolution to  
Her Britannic Majesty's government.

Harrison, Ind., from the Committee on  
Military Affairs, reported adversely the  
bill to abolish the military reservation at  
Fort Rice, Dakota. Indefinitely post-  
poned. Maxey, Tex., from the Com-  
mittee on Military Affairs, reported favor-  
ably with some amendments the bill to con-  
solidate the bureau of military justice and  
the corps of judge advocates of the army.

Placed on the calendar. Plumb, Kans.,  
offered a resolution, which was agreed to,  
calling on the Commissioners of Agricul-  
ture to furnish information of the annual  
amount of wheat, rye, corn and cotton  
produced in this country during the  
five years preceding 1882, also,  
speculation, by "options"  
or futures in these productions, where ac-  
tual transfer takes place tends to effect  
the market value of the commodity or to  
injure some of the producers. The bill  
was passed by a vote of 75 yeas and 19  
nays.

The Chair laid before the Senate the  
unpublished business, being the bill to au-  
thorize the construction of additional steel  
vessels for the navy.

Hale, Me., addressed the Senate, point-  
ing out the necessity for the ships and  
that the United States possessed hardly a  
single ship of the class now recognized by  
nations, as would be necessary for  
naval purposes. Whenever he contem-  
plated the things that were happening  
almost every day, the clouds lowering over  
the political horizon, though not them-  
selves brought within danger, it at least  
showed that this country should no longer  
be permitted to remain in its present  
helpless condition. In case of trouble the  
people of the United States would be loth  
to forgive any administration of public  
affairs that had not sought to do some-  
thing to remedy the present defenseless  
condition of the nation.

McPherson, N. J., criticised the Sec-  
retary of the Navy for his disposition to  
get rid of all old vessels and build new  
ones.

Butler, S. C., defended the Secretary.  
The debate was continued to considerable  
length and without action the Senate went  
into executive session and soon ad-  
journed.

House.

WASHINGTON, D. C., Feb. 26.—After  
the transaction of routine matters the  
House went into Committee on the  
Whole. Cox, N. Y., in the chair. On  
the plura-pneumonia bill Hopkins, Pa.,  
offered an amendment providing that the  
appointment of examiners shall be with  
the consent of the State Legislature. Ex-  
ton, Conn., opposed the amendment be-  
cause the bill could not be amended so  
as to make it decent. It was unconstitu-  
tional from head to heel. He regretted  
that the gentleman from Missouri (Hatch)  
had said that New York, New Jersey  
and Connecticut were barnacles.

New York, New Jersey and Connecticut  
were barnacles. Hatch said that the  
gentleman had misapprehended his re-  
marks if he understood him to say that  
New York, New Jersey and Connecticut  
were barnacles. He had spoken of in-  
dividuals and not of States. Kansas,  
Iowa, urged the necessity Federal inspec-  
tion of some sort that would furnish to  
foreign nations prima facie evidence of  
the safety of meat product for exporta-  
tions from the United States. A million  
dollars a week hung upon the  
consideration of this bill, for the United  
States was subjected to something ap-  
proaching prohibition in regard to some  
of the most important of its agricultural  
productions. Willer, Ia., thought that  
there were provisions in the bill in the in-  
terest of the cattle ring now being  
formed to cattle trade of the great north-  
west. Randall advocated the resolution  
which he proposed to offer at the proper  
time, recommending the bill with in-  
structions to the Committee on Agriculture to  
report back a bill which shall  
embrace a more thorough system of in-  
spection to the end that diseased  
animals shall be exported and further-  
to report a bill to organize a more strict  
quarantine against the importation of  
diseased animals and make such recom-  
mendations as will secure by the states  
such legislation as will eradicate the  
disease known as plura-pneumonia.

Keifer, Ohio, supported the bill, con-  
tending that in no way did it intrude on  
the prerogative of the states.

The committee rose informally to re-  
ceive a message from the Senate, and  
Cox, N. Y., asked unanimous consent for  
the immediate passage of the Senate joint  
resolution expressing the appreciation of  
congress and the people of the United  
States for the generous act of Her Brit-  
annic Majesty's government in presenting  
to the United States the Arctic steamship  
"Alert."

Robinson, N. Y., was on hand, how-  
ever, to interpose an objection.  
The Committee of the Whole then re-  
sumed its session and an amendment  
offered by Hopkins, Pa., was lost 91 to

101.

Having concluded the considera-  
tion of the second section the committee  
rose and the House adjourned.

Washington Consol.

WASHINGTON, D. C., Feb. 26.—At a  
meeting of the Committee on Banking  
and Currency, Buckner moved to substi-  
tute his bill, providing for the issuance of  
treasury notes to take the place of bank  
notes, for all bills concerning bank cir-  
culation that have been considered by the  
committee. Substitute rejected by a vote  
of 3 to 9. The committee, by a vote of 5  
to 4 authorized Wilkins to report to the  
House the McPherson bill as it passed the  
Senate.

Stephen Loig, colored, testified before  
the Danville committee. He was in a  
hardware store the day before the fight  
and saw two men loading about 125  
double-barreled shot guns. Went to an-  
other hardware store and there found  
white men loading double-barreled shot  
guns. Rufus Hatchett, colored, heard a white  
man say in the postoffice: "White folks  
are going to rule this town, if we have to  
kill all the niggers."

Confirmations—Horatio C. Burckard,  
Ills., Director of the Mint; Eugene O.  
Feschet, Consul at Paso del Norte;  
Daniel B. Dyer, Kansas, agent of the  
Cheyenne and Arapaho Indians in the  
Indian Territory; Henry W. Lawson,  
Texas, agent to the Indians in the Quad-  
rangle agency, Indian Territory.

The House Committee on Invalid Pen-  
sions agreed to report favorably Repre-  
sentative Watson's bill increasing the  
pensions to widows and dependent pa-  
rents of deceased soldiers and sailors  
from \$5 to \$12 per month.

P Phelps, N. J., will report back to-mor-  
row from the Committee on Foreign  
Affairs the resolution of inquiry of Rep-  
resentative Brunner as to whether a min-  
ister of any foreign power had endeavored  
to nullify the effect of the unanimous  
resolutions of the House by reflections on  
the honor and integrity of its members.

The report will state that the com-  
mittee could find no evidence and asks  
to be discharged from further  
consideration of the subject. The  
presentation of this report is asked for-  
ward to with interest owing to the proba-  
bility that the occasion may be used by  
either Hewitt or Belmont to transfer to  
the floor of the House the personal con-  
troversy between them and their col-  
leagues in the committee room. In the con-  
tention other gentlemen named may be  
brought into lively debate.

Speaker Carlisle has received a letter  
addressed to him personally by several  
of the most prominent members of the  
Liberal party in the German Reichstag,  
expressing their high sense of apprecia-  
tion for the action taken by the House  
of Representatives as a token of respect  
for the memory of the late Herr Las-  
ker. The letter expressed the hope that  
the two nations may develop and con-  
tinue friends. Among other signatures  
are those of V. Bismarck, who visited  
America during the past summer, and  
Frederick Kopp, formerly a lawyer in  
New York, members of the Executive  
Committee of the Liberal party.

Ex-Marshal Turner, Alabama, was be-  
fore the House Committee investigating  
expenditures in the Department of Justice  
to-day and was cross-examined by the  
committee. He protested against the  
cross-examination by the examiners of the  
department who were present, and said if  
he had them in Alabama he would have  
them all in the penitentiary. He exhib-  
ited two affidavits from persons who de-  
nied having made certain affidavits that  
the examiners held.

Commissioner Loring laid before the  
President the report of the commission ap-  
pointed to examine the swine industry of  
the United States. It is emphatic in the  
statement that there is no condition sur-  
rounding disease, or render poor un-  
healthy.

Invalid.

KEOKUK, Iowa, Feb. 26.—Judge Mc-  
Crary rendered decrees in the Iowa  
barbed wire cases to-day declaring the  
Glidden & Kelly reissued patents, in-  
valid.

Cooking Raisins, 8 lbs  
for \$1. These are very  
nice, and just the thing for  
the kitchen. Saint & Cle-  
land.
